

EXPERT PANEL DISCUSSION FIGHTING FLU'S WRATH: What's in Your Fridge?

Experts in primary care, infectious diseases, and cardiology gather to:

- Re-frame the magnitude of influenza's impact in older adults
- Review vaccine options and explain the importance of evaluating their clinical evidence
- Share best practices in helping to increase patient acceptance and drive immunization rates in your practice
- Answer your questions!

New Season. Same Threat. How Will You Help Prevent More Flu?

Sanofi Pasteur is excited to offer you and your practice the opportunity to participate in a series of LIVE national broadcasts on influenza prevention. Each 30-minute session will feature subject matter experts discussing recent findings from the literature on influenza disease, as well as vaccine options for older adults. Q&A will be offered following the presentation.

BROADCAST SCHEDULE

Thursday, March 28, 2019

	BROADCAST 1	BROADCAST 2	BROADCAST 3
EASTERN	12:15 PM	1:30 PM	3:15 PM
CENTRAL	11:15 AM	12:30 PM	2:15 PM
MOUNTAIN	10:15 AM	11:30 AM	1:15 PM
PACIFIC	9:15 AM	10:30 AM	12:15 PM

Have your questions answered by experts.

Submit them in advance to fluquestions@connexion360.com. The faculty will address as many questions as possible during the 45-minute program.

FEATURED SPEAKERS

John J. Russell, MD
Clinical Professor
Family and Community Medicine
Thomas Jefferson University Sydney Kimmel
School of Medicine
Philadelphia, Pennsylvania

Dr John Russell is a frequent lecturer on primary care and family medicine topics, including more than 100 Continuing Medical Education programs on infectious diseases/immunizations, asthma, lipids, diabetes, and chronic obstructive pulmonary disease. He is the author or coauthor of multiple journal publications on family medicine topics, including adult immunizations, dermatology, and infectious diseases. Since 2014, he has served as the host of Clinician's Roundtable and Book Club on Reach MDTM (SiriusXM®/iHeartRadio). Dr Russell lectures regionally and nationally on a variety of topics. In addition, he is a contributor to and reviewer for *American Family Physician*. He also serves as the cohost of the monthly American Diabetes Association podcast on diabetes, "Diabetes Core Update."

Vincent P. Hsu, MD, MPH, CIC, FSHEA, FACP
Hospital Epidemiologist & Executive Director
for Infection Prevention
Florida Hospital
Orlando, Florida

Vincent P. Hsu, MD, MPH, CIC, FSHEA, FACP, is the Hospital Epidemiologist and Executive Director for Infection Prevention at Florida Hospital in Orlando. He also serves as an Assistant Director for the Florida Hospital Internal Medicine Residency Program, with faculty appointments from the Colleges of Medicine at Florida State University and the University of Central Florida.

He trained at the Centers for Disease Control and Prevention as an Epidemic Intelligence Service Officer studying outbreaks caused by respiratory and enteric viruses, participating in investigations into the 2001 anthrax attacks and 2003 SARS epidemic. His articles have been published in several peer-reviewed journals. Having served as the Director for Continuing Medical Education and with current involvement in training medical residents, Dr Hsu has a passion for education. Specific areas of interest include methods to improve vaccination rates, prevention of hospital-acquired infections, hospital biopreparedness, and strategies to improve patient safety.

Mohammad Madjid, MD, MS, FACC, FSCAI
Interventional Cardiologist
Houston Health Science Center
Assistant Professor of Medicine
McGovern Medical School
University of Texas
Houston, Texas

Mohammad Madjid, MD, MS, FACC, FSCAI, is an Interventional Cardiologist and Assistant Professor of Medicine at McGovern Medical School, University of Texas Houston Health Science Center in Houston, Texas. Dr Madjid received his medical degree from the School of Medicine at the Tehran University of Medical Sciences and his Master of Science degree in Clinical Research from the Center for Clinical Research & Evidence-Based Medicine at the University of Texas Houston Health Science Center. He has studied internal medicine at Baylor College of Medicine in Houston, and cardiovascular diseases and interventional cardiology at Texas Heart Institute/St Luke's Episcopal Hospital, also in Houston. He is board certified in internal medicine, cardiovascular diseases, interventional cardiology, adult echocardiography, and nuclear cardiology.

He has previously served as a Research Assistant Professor of Medicine and Cardiology at UT Health, followed by a tenure as a Senior Research Scientist at Texas Heart Institute in Houston. He has researched and published on cardiovascular risk factors, high-risk atherosclerotic coronary plaques, and vascular inflammation, with focus on the role of infections in cardiovascular diseases.

Over the past decade, Dr Madjid's research lab has been the leading lab researching the role of influenza in triggering heart attacks in large epidemiological studies, studying the pro-inflammatory effects of influenza infection in arteries of mouse models. He has published extensively on the impact of flu in cardiology and has served as a member of the Writing/Steering Committee for guidelines published by the American College of Cardiology (ACC)/American Heart Association (AHA)/US Centers for Disease Control and Prevention (CDC).

In accordance with Sanofi Pasteur's policies and the PhRMA Code on Interactions With Health Care Professionals, attendance at this educational program is limited to health care professionals. Value transfers to licensed health care professionals by pharmaceutical companies may need to be reported according to certain state laws, as well as Federal Sunshine Act provisions. This is a non-CME educational event. CME credit will not be offered for this program.
